**Richard Neifeld, Ph.D.****Patent Attorney**Email Address: rneifeld@neifeld.com[Vcard](#)**Education**

J.D. The George Washington University Law School 1994

Ph.D. Rutgers University (Solid State Physics) 1985

B.S./B.A. University of Rochester (Physics and Mathematics)

(Cum Laude and Honors) 1980

Experience

Former Vice Chair of the PCT Issues Committee of the AIPLA. Former chair of the Interference Committee and Services Subcommittee of the Interference Committee of the American Intellectual Property Lawyers Association (AIPLA). Member of the AIPLA, Virginia Patent Lawyers Club, ASIPI, AIPPI, and the Patent Information Users Group. Extensive experience in "specialty matters" in the U.S. patent office, such as appeals, petitions, reexaminations, reissues, public protests, and extensive experience in foreign prosecution, and interferences and related litigation. Extensive experience in due diligence work, including investigations, database searching, and opinions.

Admitted to practice before the United States Patent and Trademark Office, the Courts of the Commonwealth of Virginia, the United States Court of Appeals for the Federal Circuit, the United States Court of Appeals for the Fourth Circuit, the United States District Court for the District of Columbia, and the United States District Court for the Eastern District of Virginia.

Widely published in IP law publications, frequent lecturer to patent attorneys on patent law topics, and an active member of the patent bar associations. Founder and moderator for the popular "patentinterference" group on the groups.yahoo.com/group/patentinterference web site, which is a forum for general information on patent law and practice with a focus on patent interference issues.

Co-founder of the www.PatentValuePredictor.com automated patent valuation service, co-inventor of the underlying macro-economic model for valuing patents, and programmer of some of the code powering the automated valuations.

Dr. Neifeld did his post doctoral work at Rutgers University, and then worked as a staff scientist at the U.S. Army's Laboratory Command for several years before entering the field of law. His research focused on applied physics areas of electro-optics, III-V materials, microwaves, vacuum deposition technology, superconductors, and electronics directed towards the U.S. Army's electronics, communication, and signal processing needs.

Education

J.D. The George Washington University Law School 1993
 Ph.D. Harvard University (Synthetic Organic Chemistry) 1989
 B.S. Stevens Institute of Technology 1980

Experience

Dr. Robert W. Hahl is a Registered Patent Attorney. His practice is focused on patent prosecution in the fields of pharmaceuticals, diagnostics, polymers, catalysts and genetic engineering. He has extensive experience counseling corporations in protecting their intellectual property. In addition to guiding many hundreds of patent applications to allowance Dr. Hahl has handled patent interferences and provided numerous legal opinions to companies regarding potential litigation, product clearance studies and license agreements.

Before joining the patent field, Dr. Hahl was a laboratory researcher. He attended Harvard University and earned a Ph.D. in synthetic organic chemistry under the direction of Nobel Laureate E.J. Corey, and also conducted biochemistry research in collaboration with Massachusetts General Hospital. Prior to obtaining an advanced degree he worked as a research chemist at Merck and Co.

Admitted to practice before the United States Patent and Trademark Office and the Courts of the Commonwealth of Virginia.

Background

Twenty years experience in patent law, involving a wide range of chemical technologies, including pharmaceuticals, genetic engineering, polymers, and semiconductors.

Inter partes

- Patent interference (lead counsel), use of monoclonal antibodies for treatment of neurodegenerative diseases; TACT, Inc.
- Patent interference (backup lead counsel), semiconductor imaging devices; ASML Lithography N.V.
- Patent litigation on metal alloys and production methods; Morgan Crucible
- Patent litigation on double-walled gasoline storage tanks.
- Patent interference on protein expression in transgenic corn; Monsanto
- Patent interference on agricultural chemicals; Bayer
- Patent interferences (seven related cases) on polyethylene, polymerization processes, and soluble transition metal catalysts; Dow Chemical
- Patent interference on contact lens solution; Alcon
- Patent interference on UV-resistant coatings; Sherwin-Williams

ex parte

- Patent prosecution and legal opinions on numerous cases in pharmaceutical and industrial chemistry; BASF
- Patent prosecution and legal opinions on numerous pharmaceutical cases; Ajinomoto
- Patent prosecution on numerous cases in industrial chemistry; Degussa
- Patent prosecution on animal feed additives; Anitox Corp
- Patent prosecution on industrial chemicals and processes; Kobe Steel
- Patent prosecution on pharmaceuticals; AstraZenica

Business counseling

- IP counseling and due diligence for startup involving reverse osmosis membranes, resulting in a \$15 million series B funding by a major venture capital fund
- IP counseling on patent license from a major pharmaceutical company to EffRx, Inc., and on various rounds of venture capital for the startup
- IP counseling on transfer of patent portfolio from a venture-funded workout to Global Green Products, a supplier of chemicals to off-short oil drillers
- IP counseling to the licensor of Prem Pro (hormone replacement therapy) to Weyth

Before joining the patent field I did chemistry research for ten years including at Harvard University, earning a Ph.D. in organic chemistry under the direction of E.J. Corey, who later won the Nobel Prize (1990). Part of my doctoral studies involved biochemical research in a joint project with Garner Haupt, M.D., of Massachusetts General Hospital. I taught undergraduate organic chemistry as a Harvard teaching assistant for two years.
